November to January will be Snow Removal Enforcement. CPOs will be specifically targeting sidewalks during these months to ensure all snow and ice are removed. This is to ensure everyone whom uses the sidewalks do not fall and injury themselves.

February and March will be Business License Months. The CPOs while on regular patrol, will call or drop by businesses to ensure licenses are purchased; if work is being done in the municipality. This will help to ensure the best work is being done in the municipality.

April will be pedestrian safety month. CPOs will monitor crosswalks and intersections to ensure both drivers and pedestrians are safe. With the warm weather just around the corner, it is easy to be distracted and not paying attention to your surroundings. We want everyone safe when using the public areas of the municipality.

In May, CPOs will monitor pedal bikers to ensure safe riding practices are met and helmets are worn. This also includes making sure bikes themselves are safe to ride, one person to a bike and anything else related to bikes.

June, July and August are the busy months for unsightly properties. To ensure all the Towns are looking their best, CPOs will focus extra efforts on this potential problem area. This will also include alleyways, which have a tendency to be forgot about.

In September, CPOs, along with other enforcement partners, will focus on school zones. This will help reduce the problem areas. Keeping our children and students safe is always our top priority, even outside this month.

In October, CPOs will ensure trailers which are unattached are either off the road or attached to a motor vehicle. With the winter just around the corner, this helps with keeping the roads clear for the best snow removal available.
