

SOUTHERN ALBERTA WATER CHARTER 2017

Whereas, the United Nations General Assembly: "Recognizes the right to safe and clean drinking water and sanitation as a human right that is essential for the full enjoyment of life and all human rights." (28 July 2010, Resolution 64/292)

And Whereas, the Government of Canada has stated: "Pollution of the water resources of Canada is a significant and rapidly increasing threat to the health, well-being and prosperity of the people of Canada and to the quality of the Canadian environment at large and as a result it has become a matter of urgent national concern that measures be taken to provide for water quality management in those areas of Canada most critically affected." (Canada Water Act, R.S.C., 1985, c. C-11)

And Whereas, the Province of Alberta has stated: "Water is not only a resource, it is a life source. We all share the responsibility to ensure a healthy, secure and sustainable water supply for our communities, environment and economy - our quality of life depends on it. The Government of Alberta's renewed Water for Life strategy has three main goals: Safe, secure drinking water; Healthy aquatic ecosystems; and Reliable, quality water supplies for a sustainable economy." (Water for Life: Alberta's strategy for sustainability, 2003- Nov 2003)

And Whereas, the Oldman Watershed Council has stated: "Southern Alberta has a water heritage worth protecting. The Oldman Watershed provides: world-class recreational opportunities; rich economic benefits; home to wildlife and many species at risk; a source of spiritual meaning; life and prosperity from the headwaters through to the Hudson Bay.
