

BETWEEN FRIENDS

We have a very special program here in Coalhurst with a group of seniors and the grade eight class from Coalhurst High. I cannot express enough how special and valuable this program is for the students, the seniors and our community. We meet in the Community Center for about an hour once a week. We share our experiences growing up and the students share what they are living now. We talk, play games, and the students serve us tea or lemonade and goodies the students have made themselves in the new kitchen at the high school. The seniors, in pairs, spend time with five or six students each week and I have yet to spend time with a group that were not respectful and a pleasure to be with. The students have requested that the seniors come to the school for a visit so they can show off their school and it is encouraging to witness how proud they are of their school. I look forward to the grand tour and to enjoy the wonderful programs happening in our school.
