ABANDONED WELL INFORMATION

This applies to developments that require a new permit from the municipality for:

- new buildings larger than 500 sq. ft. (47 sq. m.), or
- additions to buildings that will result in the building being this size or larger.

If your development proposal fits the criteria above, you are **required** to do the following:

1. Obtain map and well information

Please go to the ERCB's Abandoned Well Viewer (viewer) on the ERCB website at www.ercb.ca. The viewer will provide a map identifying all recorded abandoned well surface locations in the selected area and list any additional details that are available, including the licensee(s) of record and the latitude and longitude of each well's surface location.

If you do not have Internet access or have questions about the information provided by the viewer, you may contact:

- the ERCB Customer Contact Centre by telephone at: **1-855-297-8311 (toll-free)**, or
- by e-mail at: Inquiries@ercb.ca, or
- the ERCB Information Services by mail at: **Suite 1000, 250 – 5 Street SW, Calgary, Alberta T2P 0R4**.

2. Submit the following as part of your development permit application

- the ERCB information, including a map of the search area from the viewer and a statement that there are no wells in the project area or a list and map identifying the location of abandoned wells within the search area (including the surface coordinates, as provided by the viewer or ERCB Information Services); and
- if an abandoned well is present, a detailed site plan must be provided that accurately illustrates the actual well location (i.e. latitude, longitude) on the subject parcel as identified in the field and the setback established in the ERCB Directive 079 (a minimum 5 m radius around the well) in relation to existing or proposed building sites.

If there is an abandoned well located in the area of the proposed surface development, the applicant is advised to contact the well licensee of record for any additional information that may be needed or to physically locate the well, and to discuss the proposed development and abandoned well issue in more detail.
