

What is carbon monoxide?

Carbon monoxide (CO) is an invisible, silent, odourless toxic gas. In an enclosed space, such as a home or garage, CO exposure can lead to serious illness or death.

What are the signs of CO exposure?

- √ Headache and dizziness
- ✓ Fatigue and weakness
- √ Watering and burning eyes
- √ Nausea and vomiting
- √ Loss of muscle control

Where does CO come from?

Improperly operating natural gas appliances:

- ✓ Furnace
- √ Hot water heater
- √ Dryer
- ✓ Range
- √ Fireplace

Exhaust from:

- √ Gas and diesel vehicles
- √ Gas-powered machines
- √ Wood-burning fireplaces

Get a CO alarm today at your local home improvement retailer.

COMPLETE THE FOLLOWING CHECKLIST TO HELP **PREVENT** CO IN YOUR HOME.

	Fuel-burning appliances (furnace, hot water heater, fireplace, natural gas range, etc.) checked by a qualified technician regularly according to manufacturers' specifications. Last inspection (date):
