

Coalhurst COVID-19 Pandemic Community Helping Hands Response

The Town of Coalhurst is establishing a system to assist residents of Coalhurst who may have challenges accessing essential items such as groceries and medication during this time. Residents who may need assistance could include those who are self-isolating, in-quarantine, disabled, senior citizens or those with compromised health or other health conditions.

If you are requiring assistance or know of someone who might be, please contact the Town of Coalhurst

How it will work:

- **Register if you require assistance getting essential items**
- **You will be required to answer a few screening questions**
- **You will not be required to give personal health information**
- **We will assist in planning to have items picked up delivered to your home**
- **Situations may be different from individual to individual. Please call to further discuss.**

We are also looking for individuals to volunteer to assist with this initiative. Volunteers would be asked to pick up and deliver items for those who are not able to during this time. Volunteers are required to be in good health and practice good hygiene and frequent handwashing. Volunteers will not be required to be in contact with any individual with symptoms of sickness and should be continuously practicing social distancing.

If you are interested in assisting with this initiative, please contact the Town of Coalhurst

“Although this is unlike anything we have ever experienced, working together as a community will allow us to overcome this difficult time. We need to support one another and help neighbours in need”.

-Mayor Cassie

During this uncertain time, it is imperative for all people locally, nationally and internationally to work together. If you can- while practising social distancing – check on individuals in your neighbourhood who are elderly, disabled or isolated. By working together, we can make sure no one is left without essential items. We will get through this difficult time together.
