

# FOOD SECURITY SATURDAY

**Where:** Miners Memorial Park

2<sup>nd</sup> Street (see map below for line up details)

**When:** February 13, 2021

**Time:** 1:00-3:00pm

**Who:** EVERYONE!!

FOR RESIDENTS OF  
COALHURST AND  
AREA ONLY! PROOF  
OF RESIDENCY IS  
REQUIRED!

## COVID-19 PROTOCOLS

- **DRIVE THROUGH ONLY!**
- Please remain in your vehicle the entire time. We will gladly bring items to you and place them in your vehicle.
- Masks required.

## Bottle Drive Fundraising

Drop off any bottles and cans for the ongoing fundraiser! We use the funds raised to offset costs like warehouse storage, equipment rentals and trucking fees.

In partnership with the Calgary Family Peer Connections, we are bringing **Food Security Saturday** to the community of Coalhurst. The food is completely free. Everyone can access this event.

**Where does the food come from?** The CFPC has kindly rescued the food from local business's around southern Alberta to ensure it does not end up in landfills. The food given is not always perfect and can not be sold, so rather than let any of it go to waste - it has been extended to this community! The CFPC believes in Shredding Mental Health Stigmas during the COVID-19 pandemic by distributing food to everyone regardless of their socioeconomic status, and that all individuals should have equal access to necessities. In a country where 2 million tons of food is wasted each year, we are helping divert food from the landfills and get it into the hands of some folks that will use it. For some people it makes a difference in being able to use a little extra money for necessities, such as rent, fuel and clothing. For others it may give them peace of mind they are reducing waste, and for some it gives them a little something extra to share with a friend or a neighbour. In all cases it is going to good use and not being wasted.

The CFPC aims to meet short term food needs and provide basic mental health support, with a goal of bridging service gaps, connecting individuals to local resources and agencies, and decreasing adverse affects of the pandemic.
